CASABLANCA, MOROCCO

About me

As an experienced UI/UX designer with a background in graphic and motion design, I have a strong understanding of design principles and a keen eye for aesthetics. I am also skilled in programming, which allows me to bring my designs to life and create interactive, user-friendly experiences. I have designed websites and mobile applications, and I have a strong portfolio of successful projects to demonstrate my abilities. I am a creative and analytical problem-solver, and I am always looking for ways to improve the user experience through design.
